

CORPORATE PROFILE

WESSELS IMMINK BOTHA INC.
ATTORNEYS | PROKUREURS

PURPOSE OF THIS DOCUMENT

It is our pleasure to present you with an introductory document depicting a snapshot and first glance into our firm and its operation.

This Corporate Profile is indicative of our potential service offering to you, from where we will gladly facilitate further discussions with your representatives.

WHO WE ARE

We are a young, energetic and multi-disciplinary law firm situated in Centurion, Gauteng Province.

We differentiate ourselves from other firms by providing professional, tailor-made solutions and services.

In an economically challenging climate, we have adapted to taking on a modern outlook in finding legal solutions. We take time to understand our clients' needs, their business and their goals. Our passion is this approach: to be results-driven and find the best solution for our clients' legal and other requirements.

WHAT IS IMPORTANT TO US?

Our clients' and their enterprises' wellbeing are always placed at the forefront. We are committed to maintain a standard of professional excellence and integrity which extends beyond merely furnishing technically correct legal advice. We apply our skills and expertise to our client's needs in an assertive and invested manner and it is our firm's philosophy in finding legal solutions.

FLEXIBILITY

As a smaller-based, vibrant firm, we can easily service clients personally, fast-track any immediate action and consult face to face as much as required. Collaboration is fundamental to our success. We regularly join forces with independent consultants, advisors, and legal counsel respected by the judiciary. Where a matter is positioned in a specialised area of practice which demands expert involvement, these skills and expertise are readily available to you in our service offering.

We thus always maintain our flexibility to customize our service to allow the best available service to be accessed at a commercially viable fee.

COMMERCIAL, LITIGATION & AVIATION TEAM

REGHARDT WESSELS | LLB, North-West University (Potchefstroom)

Reghardt is a new-generation attorney with a modern outlook on legal solutions who started his professional legal career in 2010. Currently, his primary focus is Commercial Litigation. He assertively represents his clients, he is very pragmatic and will cut to the core of a matter quickly. His values, unique style and result-driven approach inspired a break away to establish his own practice. His client base grew at a rapid pace and the team expanded, from where Wessels Immink Botha Incorporated (WIB Attorneys) was established.

WOUTER BOTHA | LLB, North-West University (Potchefstroom)

Wouter oversees a vast portfolio of High Court litigious matters. He has distinguished himself as a talented young litigator and commercial attorney, who by virtue of his diligence and passion for the law, has been successful against firms ten times our size. In addition to assisting clients with their legal issues, Wouter enjoys understanding client's business goals and places great value on relationships with clients. His verve and dedication are evident through the outcome of his work.

PRACTICE AREAS IN WHICH WE CAN BE OF SERVICE

COMMERCIAL

Commercial, contractual and corporate law refers to the relevant laws and legislation that determine the rights, relations and conduct of natural and legal persons engaged in commerce, merchandising, trade and sales (to name but a few) and govern disputes arising out of ordinary and complex transactions such as the aforementioned. We assist clients with all commercial and corporate aspects of their business. Our services are not limited to the drafting and settlement of a composite range of commercial contracts but also include advising on the tax and other implications of commercial transactions and conducting due diligence investigations in association with various external consultants and counsel. We also offer a comprehensive statutory and company secretarial function that is tailored to each client's expectations, including lodgment of any and all company documentation at CIPC. We also offer assistance with the structuring and incorporation of foreign companies.

LITIGATION

Litigation is the process of referring a civil lawsuit (legal dispute) to court either by way of action proceedings (summons) or application proceedings (notice of motion). Our office may service multiple jurisdictions in Gauteng (Magistrate's Courts and High Courts). Having established relationships with correspondent attorneys across South Africa, we are enabled to litigate throughout the entire country. Our litigation department is truly one of our flagship departments. We pride ourselves in our expertise and experience, litigating on behalf of our extensive and diversified client base, including individuals and corporates. In addition, we assist with debt collection i.e. the recovery of all monies due, owing and payable to our clients.

LABOUR LAW

Employment (Labour) Law governs the relationship between employers, employees, trade unions and the government. This field of law is mainly governed by the Labour Relations Act 66 of 1995, the Basic Conditions of Employment Act 75 of 1997 and the Employment Equity Act 55 of 1998. We can be of assistance by reviewing and drafting employment agreements and disciplinary codes, assisting with complaints regarding misconduct (including the drafting of the necessary notices and conducting disciplinary hearings) and representing clients at the CCMA.

AVIATION

Aviation law is a highly regulated environment dealing with regulations placed on operators, their aircraft and the facilities that are utilised in the conducting of their business. Through our team of expert consultants (including a team with vast experience as pilots, aircraft owners and operators), we provide a comprehensive aviation service. This experience has given us a solid understanding of the aviation industry, which allows us to better understand our clients' requirements. Due to our firm offering a broad spectrum of legal services, we are able to advise our clients on various aspects of the aviation industry, including but not limited to drafting of various aviation-related agreements and ensuring compliance with the industry's stringent legislation and regulations.

PROPERTY

Property Law regulates the rights of people in or over certain objects or things. It is concerned with a person's ability to undertake certain actions with certain kinds of objects in accordance with the relevant laws. Our firm, in association with a firm purely focusing and specialising in property law, offers a range of property related services, including the marketing and selling of property (commercial or residential), registration of property transfers, property valuations, lease disputes and advising on any property related transaction.

OTHER

We also offer a wide variety of other services, including but not limited to a range of fiduciary services (registration of trusts, the planning of estates, drafting of wills, administration of deceased estates), criminal defence law and the investigation of commercial crimes.
